WINTER B
Lesson 7

What a Wonderful Creation!

"I praise you because I am fearfully and wonderfully made."

Psalm 139:14

Before my baby was born, I was in awe of the miracle of babies growing in the womb. After the birth, I realized the miracle of growth continues for years. I let my child know how she is changing by saying, You are growing up. **You can do all kinds of things you couldn't when you were a baby.** When we are out, we hold hands as we go from one place to another, sometimes jumping, hopping, or running. At bedtime, we might crawl from the living room to bed.

Try This:

We started recording the growth of our kids when they were toddlers by marking a line and the date with a pencil on the back of their bedroom doors. When we moved, we measured all the heights and wrote them in a journal and started new marks in the closet at the new home.
